

# EDI Testing: Unisys Community Portal

Located at <https://sites.edifecs.com/?unisys>

## **Providers can use this site to begin EDI testing:**

- Provides additional self-service testing opportunity
- The site is available now
- Web based self-registration process
- Ability to upload test files directly to the site
- Performs HIPAA validation for all EDI transactions
- Real-time validation of test files
- Error reporting facilitates data correction
- Access to HIPAA Guidelines and MaineCare Companion Guides
- Support issues can be reported from the site
- Not required to be a registered Trading Partner
- Testing is available to Software Vendors directly

# EDI Testing continued
